

Clinic Guide

HIV Specialty Clinics and Dental Clinics Serving People Living with HIV/AIDS In the Greater Philadelphia Area

Updated for June 2011

| <u>Contents</u> | <u>Page Number</u> |
|------------------------------------------------------|--------------------|
| • HIV Specialty Clinics by Neighborhood and Zip Code | 2 |
| • A to Z listing of HIV Specialists | 4 |
| • A to Z listing of HIV Specialty Clinics | 8 |
| • Dental Referrals and A to Z list of Dental Clinics | 21 |

HIV specialty care is important for people living with HIV/AIDS

*Everyone living with HIV/AIDS in the Philadelphia area can see an HIV specialist, **regardless of their ability to pay.***

HIV specialists are medical providers who:

- See a lot of people living with HIV/AIDS (at least 20 in the last 2 years)
- Keep up to date on HIV treatment changes

Regular dental care is important for people living with HIV/AIDS

It is recommended that everyone visit a dentist every six months. This is especially important for people living with HIV/AIDS, because:

- Gum disease causes an ongoing infection that can stress the immune system
- Symptoms of side effects and opportunistic infections (OIs) can appear in the mouth

Inclusion in this guide does not indicate quality of care provided. Please report any errors to staff at the AIDS Library at 215-985-4851, fax to 215-985-4492, or email library@aidslibrary.org.
